GENERAL SURGERY

Over the past 25 years, our experienced General Surgery team has performed thousands of procedures at some of Boston's finest teaching hospitals. Today, we have recruited several highly-regarded surgeons and are able to provide state-of-the-art care in our new operating rooms.

Our general surgeons handle routine cases as well as most complex procedures. Whenever possible, we use minimally invasive techniques to reduce the discomfort and recovery time of surgery. Many procedures can now be done on an outpatient basis with patients going home the same day.

Many of our surgeons have pediatric experience and can treat children six years of age and older.

Services include but are not limited to:

- Minimally invasive treatment for GERD (Heartburn)
- Cancer Treatment-Breast, Colon, Stomach, Esophagus
- Treatment of Breast, Intestinal, Abdominal, Gallbladder, Appendix, Colon and Rectal Issues
- Endocrine surgery (thyroid, parathyroid)
- Hemorrhoid Treatment
- Hernia Treatment
- Cyst and Lesion Removal
- Wound Care
- Splenectomies
