Fellowship: M.D. Anderson Cancer Center (Surgical Oncology)

COSMETIC MEDICINE

At the Cambridge Cosmetic Center, we provide a wide range of services that help you look and feel your best. We know that each person is different, so we work with you to create personalized treatments that deliver the best possible results.

The Center's approach to patient care is to provide exceptional cosmetic services which are convenient and confidential. Because many people want enhancement without having surgery, we also offer minimally invasive procedures and take extra care to minimize discomfort.

Our staff of Harvard affiliated experts - from the fields of Dermatology, Otolaryngology, Plastic Surgery, and Vascular Surgery - use advanced cosmetic techniques and the latest procedures. Their knowledge will help you make an informed decision, and their skills will allow us to meet your expectations.

We have two convenient locations. Cambridge campus, 1 mile from Harvard Square, and Whidden campus, just minutes off Route 16. We look forward to seeing you at our beautiful facilities.

Some of the services we provide are:

- Medical Glycolic Peels
- Plastic and Cosmetic Surgery Consults
- Varicose and Spider Vein Treatments
- Restylane
- Radiesse
- Botox

Cosmetic procedures are typically not covered by health insurance. For your convenience we accept payment by MasterCard, Visa, American Express and personal checks and cash.

EYE CARE

CHA has opened a beautifully renovated and expanded full-service Eye Center in the Highland Building at our Somerville Hospital campus. Patients can now see a doctor, undergo testing, and purchase eyeglasses or contact lenses all in one convenient location.

Our expert eye doctors and surgeons offer everything from routine eye exams to the most advanced treatments. Using high-tech equipment, our doctors are able to prevent, detect, and treat nearly every eye condition. We treat people of all ages, from infants to older adults.

We also have an on-site Optical Shop which stocks the latest in eyeglass frames and contact lenses.

Our services include:

Routine eye exams, eye glasses, and contact lens fittings

Diabetic eye care

Treatment for Macular Degeneration, Glaucoma, and other eye diseases

Cataract surgery

Refractive surgery

LASIK

Corneal transplantation

GENERAL ORTHOPAEDICS

CHA has an expert orthopaedics team that understands bones, muscles, and joints. Our services range from injury evaluation to complex surgery, depending on your specific health needs.

Our goals are to work with you and your primary care doctor to understand your health and help you make the best decisions for your care.

Key members of our team include:

Board-certified and fellowship-trained Orthopaedic surgeons.

Sports Medicine experts that use the latest techniques to help people with motion-related injuries.

A Hand Surgery team that specializes in hand and wrist injuries, including carpal tunnel syndrome.

Physiatrists - doctors who specialize in non-surgical care of injuries, including back pain.

Rheumatologists - doctors who specialize in arthritis, inflammation, and auto-immune disease.

Physician Assistants that work one-on-one with our doctors and our patients.

We believe that our team provides care that meets or exceeds that found in most other Boston-area hospitals. And, as part of a regional healthcare system, we see patients at four convenient Boston-area locations:

- CHA Assembly Square
- Whidden Hospital campus
- Cambridge Hospital campus
- CHA Malden

We accept most types of health insurance. Please note that you may need a referral from your PCP prior to your appointment.

ORTHOPAEDICS - SPINE SURGERY

CHA offers Spine Surgery for people who suffer from back pain, back injuries, and osteoporosis of the spine. Our expert team includes physicians, physician assistants, and physical therapists, who work together to provide each patient with the best care.

Initial Evaluations:

Many patients will initially see a doctor who specializes in Physical Medicine and Rehabilitation (Physiatry). These doctors are experts in bone, muscle, and joint injuries as well as non-injury related conditions that can cause back pain.

The initial evaluation may include further tests to better determine understand your health such as:

Radiology tests, like X-rays or MRI

Electromyography (EMG), which tests the electrical activity of muscles

Nerve conduction studies, which measure how well your nerves send electrical signals

Treatments:

Depending on your specific condition, our team may recommend therapy, non-surgical procedures, or surgical care.

Some of the treatments we offer include:

Epidural steroid injections

Facet joint injections

Medial branch blocks

Microsurgery for herniated disks

Laminectomy for spinal stenosis

Lumbar fusions for spondylolisthesis

Kyphoplasty for compression fractures

What is Kyphoplasty?

This minimally-invasive procedure can repair compression fractures of the spine which may be due to osteoporosis (an age-related softening of the bones) or cancer. During the surgery, the bones in the spine are restored to the correct position, often relieving pain completely.

It can be done under local or general anesthesia and is covered by Medicare. Benefits include correction of vertebral deformity, reduction in pain, improvement in quality of life, and low complication rates.

SURGERY

A Message from Chief of Surgery Steve Schwartzberg, MD:

Welcome to the Department of Surgery at Cambridge Health Alliance. We have a talented group of surgeons who, in combination with our MGH Anesthesia team are able to provide patients with the finest care.

I've practiced medicine in Boston for over thirty years, during which time I helped lead one of the nation's finest surgical teams. I know the type of care that patients expect, and the type of care they deserve. And I am proud of the excellent surgery team that we now have in place, right here at Cambridge Health Alliance.

Since my arrival, we have made, and will continue to make, significant investments in patient care. We now have new technology - like digital mammography, CT, MRI, Ultrasound, and a C-Arm for endovascular operations. We have also recruited new surgeons who are leaders in their fields. This allows us to provide patients with high-quality care that is both safe and effective right in Cambridge, Somerville, and Everett.

Open communication is important to me. If you have questions or concerns, please call me at 617-665-3565.

Cambridge Health Alliance now offers a wide variety of surgical care, from routine diagnostic services to highly complex procedures, including

- General Surgery
- Ophthalmology (Eye Care)
- Otolaryngology (ENT)
- Plastic Surgery/ Hand
- Podiatry
- Thoracic Surgery
- Urology
- Vascular/ Endovascular
- Orthopedics and Sports Medicine
