OBSTETRICS AND GYNECOLOGY

The Department of OB/GYN and Women's Health offers a complete spectrum of obstetrical and gynecology care to women of all ages. Services are provided by a multidisciplinary staff of nurses, midwives, and physicians at locations throughout Cambridge, Somerville, and Everett. Staff at each site work together to provide patients with comprehensive care.

Womens Health Center

The Womens Health Center located on the third floor of the Ambulatory Care Center on the Cambridge Campus, serves as the major OB/GYN clinical site. The Womens Health Center offers comprehensive OB/GYN services to women of all ages, including routine GYN exams, OB care, allied mental health, screenings, minor surgical procedures, and sophisticated diagnostic testing. Services are linked to medical and surgical specialties to ensure coordination of care.

Maternal-Fetal Medicine services are available at The Cambridge Hospital for women experiencing high-risk pregnancies. Maternal-Fetal Medicine specialists look at the health of the mother and the unborn child simultaneously to reduce risk factors. On site genetic counseling and prenatal diagnostics are available.

OBSTETRICS AND GYNECOLOGY - MIDWIFERY

Our certificated Nurse-Wives provide expert, personalized healthcare and support to women of all ages and backgrounds. They are trained in the two disciplines of nursing and midwifery, and are certified by The American College of Nurse-Midwives. In Massachusetts, Nurse-Midwives are licensed as advanced practice nurses and are authorized to write prescriptions.

Our midwives, many of whom are bicultural and bilingual, provide complete care throughout your pregnancy, labor and birth, including prenatal physical exams; lab work; individualized teaching; treatment of common health problems, referrals for amniocentesis and ultrasound; and natural childbirth.

You don't have to be pregnant to see a midwife! The Cambridge Midwives also provide well-woman care including annual GYN exams and pap smears; family planning; preconceptual counseling; safe sex counseling, and diagnosis and treatment of sexually transmitted diseases (STDs).

Cambridge Birth Center

The Cambridge Birth Center located adjacent to The Cambridge Hospital, allows women to give birth naturally in a comfortable, homelike setting. The Birth Center is staffed by the Cambridge Midwives who are certified professionals trained in the disciplines of nursing and midwifery. Midwives provide complete care throughout a woman's pregnancy, labor, and birth, including prenatal exams, lab work, patient education, and natural childbirth. The Birth Center has 3 large birthing rooms, with large beds and Jacuzzis. In addition, there are 2 exam rooms for prenatal and gynecological care. With the Birth Center located next to The Cambridge Hospital, women can be easily transferred to the hospital if medical assistance is needed.

The Cambridge Birth Center coordinates the doula services. Doulas are women who are trained to help women transition from pregnancy to motherhood. They provide support and encouragement to multi-cultural women who deliver at Cambridge Health Alliance.

Birth Center Services:

- Obstetrics
- Routine GYN care
- Family planning
- Birth Center deliveries
